Nashik, Maharashtra 422008 • prachistalmale@gmail.com • +91 8308993677 • [linkedin.com/in/prachi-talmale422104/](https://www.linkedin.com/in/prachi-talmale422104/) • github.com/Prachi422104 • <https://prachitalmale.vercel.app/>

SUMMARY

AI & Data Science student with hands-on experience in building projects using software development, data analytics, and basic AI/ML techniques. Interested in Software Development, AI/ML, and data-related roles. Currently seeking an entry-level opportunity to apply my skills and learn in a professional environment.

EDUCATION

B. Tech in Artificial Intelligence & Data Science	2023 – Present
KK Wagh Institute of Engineering Education & Research, Nashik • CGPA: 8.63 / 10	
HSC (12th), Science	2021 – 2023
HPT Arts and RYK Science College, Nashik • Percentage: 79.33%	
SSC (10th)	2020 – 2021
Adarsh Secondary English Medium School • Percentage: 95%	

TECHNICAL SKILLS

- Programming Languages: Python, C++
- Core Concepts: OOP, DBMS
- AI/ML: Machine Learning (Fundamentals), NLP, Generative AI
- Data & Analytics: Data Analysis, Data Interpretation
- Tools & Technologies: Power BI, Tableau, Excel, Git, GitHub
- Databases: MySQL, MongoDB
- Web Technologies: HTML, CSS

PROJECTS

ContractLens - Privacy-safe AI for Detecting High-Risk Clauses in Agreements	July 2026 - Present
• Built an AI-powered legal document analyzer to simplify and interpret complex agreements • Implemented anonymization, clause segmentation, and semantic search for efficient document understanding • Developed a RAG-based pipeline to generate contextual explanations of legal clauses using LLMs • Tech Stack: FastAPI, Python, FAISS, Sentence Transformers, LLMs, PyMuPDF, spaCy, Microsoft Presidio	
SmartShelf – Inventory Management & Optimization System	Sep 2025 – Nov 2025
• Developed a smart inventory management system to forecast product demand and optimize stock levels • Built machine learning models to predict future demand from historical sales trends • Performed data preprocessing and feature engineering on retail datasets to improve model accuracy • Tech Stack: Python, Pandas, NumPy, scikit-learn, backend scripting	
Stitch It Up – Tailor Management System	Mar 2025 – Apr 2025
• Built a full-stack web app for a custom tailoring service with secure user authentication and order management • Added clothing customization, order placement, tracking, and order history features • Developed RESTful APIs for user and order operations and integrated MySQL for data storage • Tech Stack: Node.js, Express, MySQL, HTML, CSS, JavaScript	

CERTIFICATIONS

- CS50: Introduction to Programming with Python - Harvard University (Python fundamentals, core programming concepts) - Sept 2025
- AWS Certified Cloud Practitioner - Amazon Web Services (cloud computing basics, AWS services) - April 2026
- AWS Prompt Engineering - Amazon Web Services (prompt engineering techniques) - July 2026
- Introduction to Data Analytics - Simplilearn (Data visualization, dashboard creation, DAX, and data analysis) - Feb 2026

HACKATHONS & CO-CURRICULAR

- Participated in multiple hackathons including Myntra HackerRamp, NASA Space Apps, PICT Hackathon, PHCET HackOverflow
- Gained hands-on experience in problem-solving, teamwork, and rapid prototyping.
- Participated twice in Prompt Quest, improving prompt engineering and AI interaction skills
- Attended an international workshop on Data Science using Python

EXTRA CURRICULAR & LANGUAGES

- Participated in stock audit activity at ABB (inventory & finance simulation)
- Active in college events and competitions
- Volunteered in e-Yantra and community-driven activities

Languages: English (Professional), Hindi (Fluent), Marathi (Native)
